

REMARKS/ARGUMENT

The Examiner's acceptance of the claim amendments made in applicants' response of 06/07/2010 is noted with appreciation. The Examiner has objected to the amendment of the drawings (FIG. 3c) and specification as potentially adding new matter. A revised FIG. 3c in the front view originally filed is filed herewith to show the detonating means 14 as well as the associated individual charges 14' which comprise the spaced charges as claimed. A replacement sheet for sheet 4/24 is filed herewith.

An amendment to the specification to include the element numbering of the associated charges is made herein for consistency.

The applicant believes that all claims now pending in the application, as amended, are in condition for allowance and action by the Examiner in that regard is respectfully requested. If additional information is required, please contact the undersigned as counsel of record.

Respectfully submitted,

/Felix L. Fischer/
